Subject: East Inlet Creek levee & disturbance

Rocky Mountain National Park (RMNP) was able to gather GPS data on Friday, June 17 on the location of the levee that was constructed along ~~North~~^{East} Inlet Creek. Using Grand County Assessor's data, we have a reasonable idea where the west boundary of RMNP is located in relation to the levee and the ground disturbance behind the levee (please see the attached map). These activities have occurred on private property within the authorized boundary of RMNP. The interest held by RMNP is a scenic easement only. At this point in time we do not know what, if any, legal recourse RMNP will pursue in this matter.

(See attached file: East Inlet Levee & Disturbance.pdf)
